

## New Santoprene™ Handle Replaces 31-211 Neoprene Handle

### product description

**The 31-211 handle is no longer offered.**

**New improved handle is IP 66/67 rated.**

Effective immediately Meltric's 31-211 neoprene handle is no longer available. Instead a new and improved santoprene handle has been developed that offers:

- IP 66/67 environmental rating (the old neoprene handle did not have an environmental rating),
- Improved cable anchoring,
- Ergonomic shape for easy handling with gloves

**Products affected:**

- DS200 • DR250 • DN7(150A)

**Neoprene handles will continue to be available for other products.**

**Notes:** • UL testing has not yet been completed

### part numbers and pricing

To order the new handle you must identify the appropriate cable size then select the appropriate part number.

Part Number	Cable Range
35-2A013-D35	1.00 – 1.375 in
35-2A013-D45	1.375 – 1.750 in
35-2A013-D49	1.750 – 1.930 in

**Note:** The difference between each part number is in the clamp assembly and bushing sizes.
